

SAVE THE DATE: June 19th 2023 (Monday)

Seminar by Prof. David Raubenheimer

Best-selling author Prof. David Raubenheimer* from Sydney Australia will visit the Inselspital on June 19th to hold a seminar about his and Prof. Stephen Simpson's invention of nutritional geometry and the subsequent discovery of protein leverage. This discovery shows that the strong regulation of protein intake by humans has a major impact on energy overconsumption and the development of non-communicable diseases such as type 2 diabetes and cardiovascular disease. First results showing protein leverage in children will be presented by Dr. med. Christoph Saner, PhD**.

* Leonard P. Ullman Professor of Nutritional Ecology in the School of Life and Environmental Sciences, and Nutrition Theme Leader in the Charles Perkins Centre at the University of Sydney. **Consultant paediatric endocrinologist, Division of Paediatric Endocrinology, Diabetology and Metabolism, Department of Paediatrics, Inselspital.

Date & Time: Monday, June 19th 2023, 12:00-13:30 (no registration required, no fees)

Location of event: Kursraum 1 Kinderklinik, Inselspital
