12.45 – 1.30 PM

Prof. Dr Tobias Nef
**“Digital Neurology -
From Assessments to Interventions”**

Prof. Dr Tobias Nef, Assistant Professor and Technical Group Head at ARTORG Centre for Biomedical Engineering Research

Sensors in the environment of patients with neurodegenerative diseases can be used to measure the everyday behavior of patients in their natural environment.

In this talk, we will discuss advantages and disadvantages of applications in the hospital, in the instrumented apartment NeuroTec Loft and at the patient's home.

Scan the QR Code or click [HERE](#) to register via Zoom

Participants may request a certificate of attendance via email after the lecture.
